

Asthma Friendly Schools Recognition Application

The Vermont Department of Health is pleased to present Vermont's Annual Asthma-Friendly School Recognition Program for K-12 schools! If you are a student, parent, teacher, community member or staff person, you can nominate your school using the survey below to document the asthma friendly actions your school has taken in the past year.

More than one nomination can be submitted for any school. Recognition will be given to schools at bronze, silver and gold levels based on the type and number of best practices identified through all nomination forms submitted for your school and confirmed by our task force, as needed.

To apply or nominate a school, please complete the survey below by May 31. The survey will take approximately 10 minutes to complete. Recognition certificates will be sent out in June. Thank you!
